

Connect your moticam Onto the eyepiece

With each **Moticam** we supply two eyepiece couplers (30mm and 38mm in diameter). Simply **connect the focusable macro lens to the camera and select the correct eyepiece coupler** for your microscope. Put the complete combination onto the eyepiece, and you have turned your conventional microscope into a **digital microscope**.

This solution is also applicable for non-Motic microscopes. In case of any doubts please contact your local Motic distributor.
